University of Michigan Summer Research Opportunity Program

Position Type: Summer Program

Position Location: University of Michigan

Position Dates: May 28 – August 1, 2015

Application Deadline: February 10, 2015

Description: SROP is a summer program designed to prepare undergraduates for graduate study through intensive research experiences with faculty mentors and enrichment activities. The major focus of SROP is to provide an in-depth research experience. Students work one-on-one with faculty mentors, and then present the results of their work at a culminating campus symposium. Other activities include weekly educational enrichment activities, a complete GRE-preparation course, and participation in a Research Symposium. Transportation will be provided and students will receive a $4,000 stipend.

Required Qualifications
- A genuine interest in pursuing a career in research and pursuing a Ph.D.
- Minimum overall GPA of 3.0
- Rising junior or senior
