TAKING ACTION THROUGH ASSESSMENT FOR IMPROVEMENT
Class goals

You will learn:

- what steps to take after analysis of data,
- what actions to take that lead to improvement.
Requirements

- Academic programs are expected to report
  - the results of each of their assessment methods
  - an action plan for each outcome based on their assessment results
- implement action plans for improving student learning
Action Plans

- Lead to continuous improvement
- Enhance effectiveness of program
- Provide for efficient use of resources
Overview:
Elements of Outcomes Assessment

1. Identify Student Learning Outcomes
2. Develop Measures of Learning Outcomes
3. Assess Learning Outcomes
4. Organize and Interpret Results of Assessments
5. Use Results to Improve Student Learning

The cycle continues with Identify Student Learning Outcomes again.
Re-cap of Entire Process

1. Define/Revise Mission & Goals
2. Identify/Revise Outcomes
3. Select/Revise Methods of Assessment
4. Develop/Revise Assessment Measures
5. Create & Implement Action Plan
6. Assess Student Learning & Analyze Results

Define/Revise Mission & Goals → Identify/Revise Outcomes → Select/Revise Methods of Assessment → Develop/Revise Assessment Measures → Create & Implement Action Plan → Assess Student Learning & Analyze Results → Define/Revise Mission & Goals
