The Department of Chemistry and Biochemistry at the University of Notre Dame is accepting applications for summer research positions from students who will be entering their sophomore, junior or senior year in the fall of 2010.

Apply online at: chemresacc.nd.edu

Application Deadline: March 31, 2010

Dr. Steven Wietstock
chemres@nd.edu
(574) 631-2302

Professor Seth Brown
Seth.N.Brown.114@nd.edu
(574) 631-4659

The program will provide:
• A stipend of $4000 for the 10 weeks of the program
• Housing for the duration of the program (not meals)
• Research supplies

Participants will have the opportunity to select from a wide variety of projects in chemistry and biochemistry, including projects in nanotechnology, computational chemistry, enzymology, protein structure, drug design and development, and catalysis.

In addition to working with Notre Dame faculty on cutting edge research, participants will have the opportunity to:
• Interact with other Notre Dame students
• Participate in research group meetings
• Present their results in an undergraduate research symposium
• Take part in workshops on science ethics, technical writing, and career development
• Enjoy the Notre Dame campus, South Bend, and Chicago through social events and group trips

Some students may be invited to return to Notre Dame for a second year of funded research.
