

P1 and P2 Pharmacy Students,

I hope everyone is enjoying a wonderful start to the new year. I had a chance to meet many students over the last few months and wanted to take the time to extend the opportunity to to apply to the Target Summer Internship Program. Each year, Target selectively hires for an intense 10 week paid summer internship program. As a pharmacy intern you will learn how Target Pharmacy integrates with the Target Store and gain an inside perspective into community pharmacy, counseling and prescription preparation. The internship program provides an opportunity to develop skills that will prepare students for a Target Pharmacy career focusing on:

Understand the business of community practice in a retail setting

Learn self care and OTC product information

Provide patient counseling and care

Develop your leadership skills

Network with store leadership

Complete experiential learning activities

Requirements

Completion of 1st of Pharmacy school

Desire to pursue a retail career in Pharmacy

Strong commitment to guest service

Ability to communicate clearly and effectively

Flexible work schedule

If you believe that you will have an interest in Community Pharmacy upon graduation, are interested in the leadership development you will learn at Target, and can commit to a 10 week summer program please feel free to apply online at target.com/careers. Please search for jobs under the job field "Graduate/Internship/MBA/Undergraduate" and the "Pharmacy". If you are interested in an internship in the South Central US you will need to apply to the listing titled "Pharmacy Intern - South central (AR, LA, OK, TX)". Additionally, please send me directly a copy of your resume/CV and a brief description of why you are interested in Target and the geographical area that you are interested in having an internship in. If you have any questions you can feel free to reach out to me at Ella.Arroyo@target.com.
