

Welcome PeopleAdmin!!!

Within the next few months the Office of Human Resources will begin accepting applications for employment exclusively on-line. We will be using PeopleAdmin as the chosen tool to assist us with the collection of both faculty and staff employment applications.

What is PeopleAdmin?

PeopleAdmin is one of the most powerful, flexible Applicant Tracking solutions that has been designed to meet the unique needs of human resources organizations in Higher Education, Government and Non-Profits. PeopleAdmin is a web-based solution that automates the entire hiring process, enabling institutions to reduce administrative activities associated with recruiting while also finding the right candidate for the right job quickly and cost-effectively.

It is also a collaborative solution used by HR, applicants, faculty, hiring managers and committees, PeopleAdmin brings new levels of efficiency to all customers of the hiring process. With the applicant experience completely online, the process is much easier for the candidate and improves the institution's recruitment brand. Hiring managers, department heads and search committee members can also utilize PeopleAdmin 7 to streamline recruiting and deliver a more effective selection process.

When will we begin using PeopleAdmin?

We will begin training users **September 7, 2010** and will continue training throughout the fall semester. We will begin accepting applications online in mid **October 2010** and will be accepting applications exclusively online beginning **January 2011**.
