ABOUT FMSTA
The Future Mathematics and Science Teacher Academy (FMSTA) is designed to engage and excite rising 9th and 10th graders who are interested in mathematics and science. Focused on the world of teaching, this unique two-week summer program aims to explore the wonders of teaching as a college major and career.

Students will gain the opportunity to:
• Learn scientific measurements and techniques used in the fields of environmental sciences
• Engage in hands-on experiences through various laboratory experiments
• Gain a better understanding of advance concepts in the STEM field

Program Information
July 11 – 22, 2016, Monday – Friday from 8:30 a.m. – 12 p.m.
on the campus of Xavier University of Louisiana
