XAVIER
UNIVERSITY of LOUISIANA

YOU'RE INVITED

**THE GENETIC PUZZLE OF OPIATE DEPENDENCY:
A New Path to Recovery**

Thursday, September 21, 2017 | 6:00 to 8:00 PM
Xavier University | Pharmacy Auditorium (Building 5)
1 Drexel Drive | New Orleans, Louisiana 70125

Join us for a special educational event as our panel of experts discuss the role of genetics in treating the brain disease of addiction. Learn how genetic testing is leading to more personalized medicine and why certain medications are more effective for some patients based on their genetics.

Counselors attending this free event can earn two CEU NBCC credits. Registration is not required. Light Refreshments will be provided. Parking available on Lots A, B, C and K.

For more information, contact AAC Treatment Consultant Patricia Benitez
at pbenitez@contactaac.com or 504-444-1204
