APPLICATION FOR XAVIER MATH FELLOW CONTINUED

Professional Experiences & Opinions *continued*

For each of the following questions answer in 50 or less.

3. Describe your greatest obstacles to student achievement & tell us how you think this program could help you overcome them.

4. Please tell us why you think that some of your students do not do well in mathematics.

5. Xavier Math Fellows favors more than one teacher participating from one school. Is anyone else from your school applying? If so, please name below.

Commitments

Before we accept you as a Xavier Math Fellows, the following requirements and signatures are needed:

Because I recognize that there are often tremendous obstacles in the field of education, and because I know that the only factor I can truly control is my own teaching effectiveness, I am applying to this program and herewith commit to:

- Full participation in each element of the program (2-week summer institute, two 8-hour Saturday sessions, and six 3-hour evening refresher workshops throughout the year; being on time and staying for the duration of each)
- Completion of assigned reflections, readings, etc.
- Maintain communication between participant and program staff via email in a timely manner
- Use of program materials and strategies and willingness to be coached
- Teaching math in grades 4th-8th for the next two school years in open admissions school

Signature (*Applicant*)

I am aware of the applicant's interest in the Xavier Math Fellow Program, therefore, I commit to placing him/her in a 4th -8th grade math teaching position for the coming school year.

Signature (*Supervisor, Principal or RSD Human Services Director*)
