

Student Survey on Reasons for Attending Xavier, Expectations, How Well Expectations Realized, and Quality-of-Life Issues

In Spring of 2007, Dr. Ronald Durnford, Office of Planning & Institutional Research, and Dr. Louis Mancuso, Department of Business, teamed up to design a survey to measure the following:

- reasons students initially chose Xavier
- student expectations for a range of issues (pre- and post-matriculation)
- student satisfaction at Xavier post-Katrina
- student evaluation regarding quality-of-life issues at Xavier

A total of 393 students were sampled, and were enrolled in classes from the departments of Business, English, History, and Pharmacy. Classes were chosen based on containing a broad mix of gender, ethnicity, and majors, and were representative of the whole of Xavier University of Louisiana.

A number of metrics have been included following the result summaries for each question and subquestion. While each metric has been tailored to the specific characteristics of the data being summarized, in general, where appropriate, these include the following:

- 1) percent of all respondents answering the question (or subquestion)
- 2) a weighted rank measure that should be clear, in context
- 3) a percentage score standardized for comparability across categories with different scales and characteristics

Questions regarding the survey or its analysis may be directed to the Office of Planning & Institutional Research at (504) 520-7566.

AGGREGATE DEMOGRAPHICS OF STUDENTS SURVEYED:	Total	Male	Female	COP	CAS	Freshman	Upper Classmen	Resident	Commuter	1st Yr/Sem	Not 1st Yr/Sem	Local	Non-Local
	393	103	286	107	280	134	256	170	219	133	257	213	174

Question 1: While choosing a college, what factors influenced your decision most? (Please rank order your top three answers, that is, 1 - 2- 3)

Total Responses by Comparison Group and by Response Rank
