FINANCIAL LITERACY INITIATIVE
What is Financial Literacy?

This purpose of this program is to empower our students with tools and information which can lead to personal financial wellness.
Why important?

I. Not Completing College Dream
The Department of Education conducted research which shows that most students say they quit their dream of completing college because of the lack of finances.

II. Default
Secondly, they found that there is a direct correlation between retention and loan default.

III. High Debt
Thirdly, some researchers found that some students took on unsustainable amounts of debt-borrowed way more than they actually needed for college.
