Please find below the recommendations for computers for students for the current academic year. Please make note that these are simple basic recommendations. Depending on the major you are pursuing and the applications you need to run, you may need a more capable computer. For example, Art majors need to run resource intensive applications like the Adobe Creative Suite. In this case, more memory (16 GB) and a larger solid state drive will be a better fit.

**Student Computing Minimum Specification (Windows)**
- Windows 10 Home Edition
- 5th Gen Intel Core i3
- 4 GB RAM
- 1 TB traditional drive

**Student Computing Recommended Specification (Windows)**
- Windows 10 Pro
- Current Gen Intel Core i3
- 8 GB RAM
- 256 GB Solid state drive

**Student Computing Minimum Specification (Macintosh)**
- Mac OS X 10.11 (El Capitan)
- 4 GB RAM
- 512 GB traditional drive

**Student Computing Recommended Specification (Macintosh)**
- Mac OS X 10.13 (High Sierra)
- 8 GB RAM
- 256 GB Solid state drive
