

Xavierites,

Thank you for being vigilant in your efforts to abide by campus policies and guidelines to help keep our community safe and healthy. You have been practicing social distancing, wearing face masks, and washing and sanitizing your hands. Your hard work is making a difference!

We're trending positively on coronavirus control and have decreased the number of cases to eight in total. Eight people, three students on campus in addition to two students and three employees off-campus, have tested positive and are quarantining. We ask individuals who have had close contact with someone who tested positive or may be experiencing symptoms but haven't been tested yet or tested negative to quarantine for at least fourteen days.

To help continue our steady improvements, we are asking our community to participate if selected, for the simple nose swab COVID-19 test so that we can continue to reduce the spread. Please note that COVID-19 testing is for the sole purpose of monitoring infection rates at Xavier. No vaccine trials are occurring on Xavier's campus.

Again, thank you for doing your part to stop the spread of germs on our campus. We are committed to our faculty, staff, and students and you all are our highest priority. Let's keep up the good work Xavierites, we're leading the way!
