

**Is it okay if a student misses a day or two of the Program?**

No. The programs are short in duration and cover a lot of content. As such, it does make a big difference if a student misses a day.

**What will happen if a student misses a day?**

The student will receive a zero in all class activities missed that day. Students who are habitually late or absent will be dismissed from the program.

**Can a student use the Star Programs to replace his/her regular high school course in algebra, geometry, biology, or chemistry?**

No! Xavier Pre-College Summer Programs are not intended to replace high school courses. Rather they are designed to enhance the student's preparation for their courses in the fall.

**Can a student use the Star Programs as a review and preparation for Advance Placement (AP) courses?**

NO! The Star Programs are introductory and designed specifically for students who have little to no familiarity with the subject or course content. It is NOT appropriate for a student who has already taken high school biology to enroll in BIOStar as a review for AP Biology.

**Do grades in the programs count?**

While the grade does not count toward the official high school or college transcript, grades count towards the successful completion of the pre-college program. Note: Students in any summer program are not officially enrolled at the University. However, the university will make a note on each student's record as a participant of its university enrichment program.

**Are there online programs being offered for 2022?**

For 2022, all Pre-College Summer Programs are in-person on Xavier's campus.

**Is there campus housing available for students in the Star Programs?**

No, we do not offer any housing options for Star Program students. Students from all over the country do participate in the Star Programs, but their guardians arrange housing and transportation.

**Can SOAR X students choose whether to live on campus?**

All SOAR X students live on campus in the residence halls for the duration of the program.

**What is included in the Star Programs fees?**

As a non-exhaustive list that is subject to change, Star Programs fees include a t-shirt, backpack, mask, digital textbook, all supplies for projects and activities, basic school supplies, award/certificates, and lunch in the XULA Café.

**What is included in the SOAR X program fees?**

As a non-exhaustive list that is subject to change, SOAR X program fees include housing, a meal plan for the XULA Café (19 meals each week), all meals during off-campus activities, entry to all off-campus activities, transportation to all off-campus activities, award/certificates, basic school supplies, backpack, t-shirt, required readings and texts, access to the learning management system, and all supplies for projects and activities. We suggest SOAR X students bring spending money for vending machines/snacks and souvenirs.
