PARENT / GUARDIAN GENERAL PROGRAM CONSENT FORM

The Xavier University of Louisiana Math & Science Upward Bound Program is designed for educational purposes. Thus, participants must meet Program educational goals and objectives to remain in the Program. Each program year, students who have progressed both academically and socially will be invited to return to the Program.

The Program is completely voluntary. Students may withdraw from the Program at anytime without penalty or loss of benefits prior to the time of withdrawal.

The Program is a federally funded program. In order to continue operating at Xavier, the staff must demonstrate their ability to motivate and encourage Program participants to achieve the objectives of the program. Therefore, the Program requires that each participant demonstrate academic/social progress. Thus, participants are tested at the beginning and ending of each academic year. Results are used to determine the student's progress and the effectiveness of the Program. Therefore, testing is mandatory and vital to the success of the Program.

There are many times when we are required to report on both the progress of the individual students and the progress of the total Program. As part of Program implementation, we will report your child's progress to his/her high school counselor, to you the parent or guardian, to the funding agency, and to other officials as required. By signing this form, you are giving us permission to release the necessary information in order for your child to participate in the activities designed to accomplish the educational goals set forth in the Program.

There are also times when your child will be required to participate in various academic and cultural enrichment activities. This may require both in-state and out-of-state travel. By signing this form, you are giving your child permission to participate in and be transported to/from the selected activities and events. If you have any questions concerning this matter, please contact our office at 504-520-5137 or 504-520-5419.

I have read and understand the information presented, and I give my child permission to participate in the Program as described above.

ABOUT **XULA UPWARD BOUND**

Xavier University of Louisiana Upward Bound Math & Science Program is a federally funded, college preparatory program for high school students who are first generation and/or Pell grant eligible. The program provides opportunities for participants to succeed in their precollege performance and ultimately in their higher education pursuits.

XULA Upward Bound Math & Science Program is designed to prepare high school students for post-secondary education that leads to careers in the fields of science, technology, engineering and math. Before completing the enclosed application, please take time to read this letter and understand the contents in order to decide if this program will benefit your child.

Xavier's Upward Bound Math & Science Program serves students from selected area high schools. Students must have completed the 8th grade, but have not entered the 12th grade, and must have an interest in pursuing a career in a STEM profession. Upon acceptance, students must participate in both the academic year program that consists of 24 Saturdays and a six-week summer non-residential program, both of which are held on Xavier's campus.

The academic year program consists of Saturday School where students attend academic classes on Xavier's campus taught by certified high school teachers or college instructors. Classes include current high school and college academic subjects as well as ACT preparation and testing. During the school year, program staff will meet the students at their schools once a month for college preparatory workshops on various topics such as developing studying skills, college selection, financial aid assistance, and career and personal counseling. Students who participate in the academic year program will receive a stipend at the end of each semester.

The summer program is six-week non-residential program for rising 9th through 11th grade students. Students will attend classes on Xavier's campus Monday through Thursday where they are enrolled in classes that will prepare them for the upcoming school year. Fridays are reserved for Field Trips. Upon completion of the program, students will receive a stipend. The summer program is a required component of the year, but students may receive permission in advance to be excused from summer program activities.

The Summer Bridge Program is a six-weeks residential program for seniors who are enrolled in Upward Bound Math & Science and graduated from their respective high school. The students are enrolled in at least 4 credit college courses in addition to completing an internship in their STEM career of interest.
