

MATERIALS AND INTERFACES CENTER FOR HIGH ENERGY STORAGE AND SENSING (MICHESS)

Scholarship for Freshman students

Are you interested in getting a Master's or Ph.D. in Chemistry or Materials Science & Engineering after your Bachelor's Degree?

- Come to Xavier and receive a scholarship from the MICHESS program that is sponsored by the National Science Foundation (NSF) and NASA
- Perform research in the state-of-the-art facility for ~10 hours a week and receive a monthly stipend during the academic year (9 months)
- Participate in a 10-week STEM summer research program (June-July) at NASA and receive ~\$4k in stipend with free room and board
- Be a part of a future NASA space mission
- Present your research at national conferences

This is a STEM research-based mentoring and training program that prepares MICHESS students for advanced degrees (MS and PhD) in chemistry, physics, and engineering. To be eligible, you must first be accepted into the MICHESS.

Above are former MICHESS students presenting their work at national conferences and showing their research skills.

For more information or to request application materials, contact
MICHESS, Department of Chemistry, Xavier University of Louisiana, New Orleans, LA 70125
