

Program Goal 5

Program Goal 5:

Provide ongoing support of faculty and staff development through graduate study, PAEA programs and university-sponsored workshops and advance awareness to the vital role PAs play in healthcare.

Outcome Measure:

The Xavier University of Louisiana PA Program utilizes one outcome measure to determine Program effectiveness in meeting the program goal to provide ongoing support of faculty and staff development through graduate study, PAEA programs and university-sponsored workshops and advance awareness to the vital role PAs play in healthcare.

.

Benchmark:

Faculty rating of the item that the sponsoring institution provides opportunities for continuing professional development (clinical, teaching, scholarly, and administrative skills) will be above our benchmark of 70% or higher (2.8 on 4-point Likert Scale). The benchmark rationale for the Likert-rating is consistent with our program-wide benchmarks.

Summary of Effectiveness:

See Table 5: Measurement of Success

The Xavier University of Louisiana PA program concluded that it met the program Goal for # 5 to provide ongoing support of faculty and staff development through graduate study, PAEA programs and university-sponsored workshops and advance awareness to the vital role PAs play in healthcare.
