

Delete Courses Form

Department or Division: _____

Preparer, Date: _____

- Review the list of courses offered in your unit and highlight those that are obsolete, being careful to also note their impact and utilization by other departments.
- Be especially attentive to courses not offered since 2005 since that may be an indication that they will not need to be offered again.
- On this form, list all the courses you wish to delete, giving prefix, number and title
- If you have courses that have not been offered since 2005 that you want to retain, please give a brief rationale for your decision to retain the course and when you think it might be offered in the future. (The CAS deans, not the Academic Council, will review this rationale.)
